Toll Messages

**Are Strictly Cash. Operators are not
Allowed to charge the same except
to Subscribers.**

Three minutes constitute One Tool over the lines of the Long Distance Company, and an additional charge is made for each additional minute or fraction thereof.

If a messenger is sent for a party the messenger fee must be paid whether the party is found or not. The messenger cannot guarantee to find the person wanted, but must be paid if service has been rendered.

This Company does not transmit written or verbal messages, and all Employees of the Company are forbidden to accept written or verbal messages or communications for delivery over the lines of this or any other Company.

This Company only provides the means and facilities for enabling its patrons to converse with each other and does not receive or transmit messages.

Monthly Telephone Rates

Toll Rates are subject to change without notice.

93.114

If you want efficient service, always observe the following rules.

1. Find the number of the party you wish to call then take down the receiver.

2. If you cannot find the number of the party desired, call for INFORMATION; she will give it to you or tell you where to find it.

3. Speak distinctly with mouth close to transmitter, giving numerals as they are listed: as 1-0-3-9 or 1-2-7, etc.

4. After you have given the number desired the operator will repeat it after you, complete the connection and ringing starts, (You can hear ringing tones at intervals of four seconds), and continues until party answers, or until you hang up. Be careful NOT to move switch hook up or down until you wish to disconnect from party called, as such movement of switch automatically cuts you off, in which case you have to start call over again.

5. To call several parties in succession make a list of the numbers desired, notify the operator that you wish to call several numbers and she will give special attention, greatly to your advantage and ours.

6. Call by number instead of name. The service will be much quicker and many mistakes will be avoided.

7. Stand close and speak directly into the transmitter, in a natural tone, distinctly and not too rapidly. Don't shout; it does no good.

8. Press the receiver firmly to the ear. It is important.

9. Answer your phone bell promptly, give your number to avoid misunderstandings.

10. Never hang up receiver until conversation is finished; the operator will disconnect if light on the board

shows receiver has been hung up.

11. When conversation is finished do not fail to hang up receiver (with ear piece down). If the receiver is not hung up you cannot be called from the central office, nor will you be able to get central for some time afterward.

12. Operators are required to be polite under all circumstances; please extend to them the same consideration.

13. Operators cannot carry on conversations while at the board; their entire attention is required to execute orders for connections.

14. Do not use the telephone during a thunder storm.

"Busy" or "Line in Use."

About ten per cent of all calls strike a line in use. It is easier for the operator to make connections than report the line "busy," and operators do not make the report to save labor, as subscribers can readily learn by a visit to the Exchange or Central Office. When a number called for is reported "busy," immediately replace the receiver in the hook and wait a reasonable time before again asking for the connection. This is important and essential to good service.

Emergencies

In case of sickness, fire or other emergency, employees of this company will cheerfully extend aid to subscribers in summoning assistance or obtaining information. It is understood that such services are given as an accommodation to the subscriber, for which the company cannot assume responsibility of any nature.

Listing of Subscribers' Names

The company assumes no liability for damages accruing from errors or

omissions in making up or printing of the Directory, nor can it guarantee the permanency of call numbers assigned or to be assigned.

Long Distance

1. The tolls for long line conversations are charged to the subscriber at whose phone they originate. Subscribers, to protect themselves, must see that no use unauthorized by them is made of their telephones.

2. Toll rates are for a conversation of three (3) minutes. Each additional minute is charged for.

3. Always tell the operator the

name of the party you wish to speak with. If you ask for a given number, firm or corporation, and a response is received from the telephone called for, the conversation will be charged for, even if the party wanted is not in.

Request

Report all trouble, inattention, neglect or other improper conduct of employees to the manager. This will be appreciated, as it is desired to give subscribers prompt attention and the best service possible. Manager's phone call is 500.
